

FOR IMMEDIATE RELEASE

## Heroes and historic military aircraft have their stories shared at Warbirds in Review during EAA AirVenture Oshkosh 2025

EAA AVIATION CENTER, OSHKOSH, Wisconsin — (May 22, 2025) — Warbirds in Review, an unparalleled presentation series during EAA AirVenture Oshkosh that brings together historic airplanes with pilots and aircraft owners, returns in 2025 with guests that encompass 80 years of aviation and military history. The 72nd edition of the Experimental Aircraft Association's fly-in convention is July 21-27 at Wittman Regional Airport in Oshkosh.

The twice-daily series of "up close and personal" stories will be held July 21-26 at the Warbirds in Review aircraft ramp, located within the EAA Warbirds of America area on the AirVenture grounds. The series is open to all attending AirVenture.

"Warbirds in Review features veterans, aviation legends, and aircraft that simply cannot be seen together in one place anywhere else in the world," said Connie Bowlin, past president of the EAA Warbirds of America, who organizes the series. "Many of these veterans maintain that they were just doing their jobs and nothing heroic or extraordinary, but that could not be further from the truth. Their stories and unique perspectives on the aircraft showcased at Oshkosh are insightful, poignant, and important for the public to hear."

The aircraft and personalities scheduled as of May 22, 2025 (subject to change without notice):

### Monday, July 21

- 10 a.m. – North American B-25 "Panchito" – Larry Kelley and family members of the late Doolittle Raiders Richard Cole, David Thatcher, and Robert Hite
