

Evergreen is excited to announce the introduction of the *Cycling Without Age* (CWA) program to our residents in late Spring/early Summer of 2022! This program was made possible through two generous donors, each with a passion for cycling, along with the Evergreen Foundation.

Our team is working hard to finalize program details for scheduling and guidelines for resident utilization. Our first step, however, is to recruit and train volunteer pilots to provide rides for our residents.

Pilots must be 18 years or older and be physically able to ride safely with 1-2 passengers. The trishaws are equipped with e-assist and hydraulic brakes for ease of navigation. Training will be provided! Evergreen also requires a background check and proof of vaccination against Covid-19.

For questions about the program or if you are interested in becoming a Pilot please contact Kristine Biesenthal, Volunteer Coordinator at [kbiesenthal@EvergreenOshkosh.com](mailto:kbiesenthal@EvergreenOshkosh.com) or (920) 237-2126. To learn more about Cycling Without Age visit [www.cyclingwithoutage.org](http://www.cyclingwithoutage.org).
