

Flexible solutions for time & attendance tracking

Eliminate hidden operations costs.

Time & Attendance with TASC Payroll Plus does away with tedious manual processes, reduces fraudulent overtime and costly errors, and enables simplified, accurate reporting. We give you the tools you need to easily collect, manage, and organize your payroll data, freeing up valuable time on your daily calendar.

Take the guesswork out of employee management.

Quickly create and organize schedules to balance workloads, ensure coverage, and reduce overtime. Clearly define specific hours-worked thresholds for full-time and part-time employees to avoid exposure.

Get the latest timekeeping technology.

Accurately track your employees' time with an array of physical time clocks, from **traditional badge swipes** to **fingerprint sensors** that help eliminate time theft to **facial readers** that provide touchless authentication in less than a second. For a remote workforce, we provide web-based options and a mobile app with GPS-enabled punching so supervisors can ensure employees are where they're supposed to be.

Streamline Time & Attendance

- Simplify time tracking with a variety of solutions to fit your needs.
- Collect accurate data in real time.
- Drop the administrative overhead associated with manually processing time cards.
- Reduce the cost of human error.
- Easily manage employee schedules.
- Eliminate wasted payroll hours stemming from poorly-tracked breaks, extended lunches and other common time padding problems.
- Enjoy complete self-service functionality so employees won't need to spend their time or yours managing time off.
- Select from intelligent, reliable time clock options to suit any worksite, from the office to the home office—and everywhere in between.
