### **SCS Breaks Ground in Oshkosh for The First Time!**

Mosinee, WIS., July 13, 2021 – On July 13<sup>th</sup> at approximately 11:30 am, SCS, the City of Oshkosh and the Oshkosh Chamber of Commerce held the Groundbreaking Ceremony for the new project. The sun was shining making it a beautiful and successful day for all who were involved. These new apartment homes will be located on 4105 State Rd 91.

This event had great success as the SCS team was joined by numerous individuals who took part in planning this project. The attendees included Rob Kleman, Sr. VP of Economic Development, Tricia Rathemel, Director of Economic Development at Greater Oshkosh Economic Development Corporation, and Gary Eake, the president of G Earl Estate Inc. From the City of Oshkosh, attendees included Mark Lyons, the Planning Services Manager. Also in attendance was Chris Phender, lender from Intercity Bank. From the Oshkosh Chamber of Commerce, CEO, John Casper, Patti Anderson, the Director of Marketing and Leadership, and many ambassadors were at the event as well.

SCS Oshkosh was approved in the fall of 2020 and less than a year later, we are already beginning construction on the site. Tom Woller, head of the SCS Construction Department has appointed outstanding individuals to lead the way of this project. Becky Hansel is the Senior Project Coordinator, Kelsey Beasland is the Project Manager, and the Site Super Intendent is Scott Ristow.

The SCS Development, Construction, and Excavation teams have been working very diligently on this new site making this entire process possible. In addition, SCS would also like to recognize the Operations Team which includes COO Nathanael Popp, marketing, and accounting teams. Without all these individuals listed above, this project would not be successful.

SCS has numerous multi-family locations under construction including projects in Merrill, Shawano, Waupaca, Weston, Marshfield, and Stanley. For more information regarding these new developments, you can visit the company's website, [www.scswiderski.com](http://www.scswiderski.com).

S.C. Swiderski, LLC: S.C. Swiderski, LLC is a real estate, construction, and property management company specializing in residential projects. The Real Estate Division manages the company's real estate portfolio handling acquisitions, sales, project design, planning, and development as well as operating a full-service real estate brokerage. The Construction Division oversees building design, project budgets and scheduling, contract procurement, project management, and construction management. The Property Management Division provides professional leasing, management, grounds keeping, and maintenance for the real estate portfolio. All areas of the company work together to proudly deliver quality housing with great service known as the SCS Difference.
